

Living on SHAKY GROUND

HOW TO SURVIVE EARTHQUAKES AND TSUNAMIS IN NORTHERN CALIFORNIA

Step 3

ORGANIZE DISASTER SUPPLIES

EMERGENCY SUPPLIES

Store disaster supplies in a place you can easily access if your home is damaged.

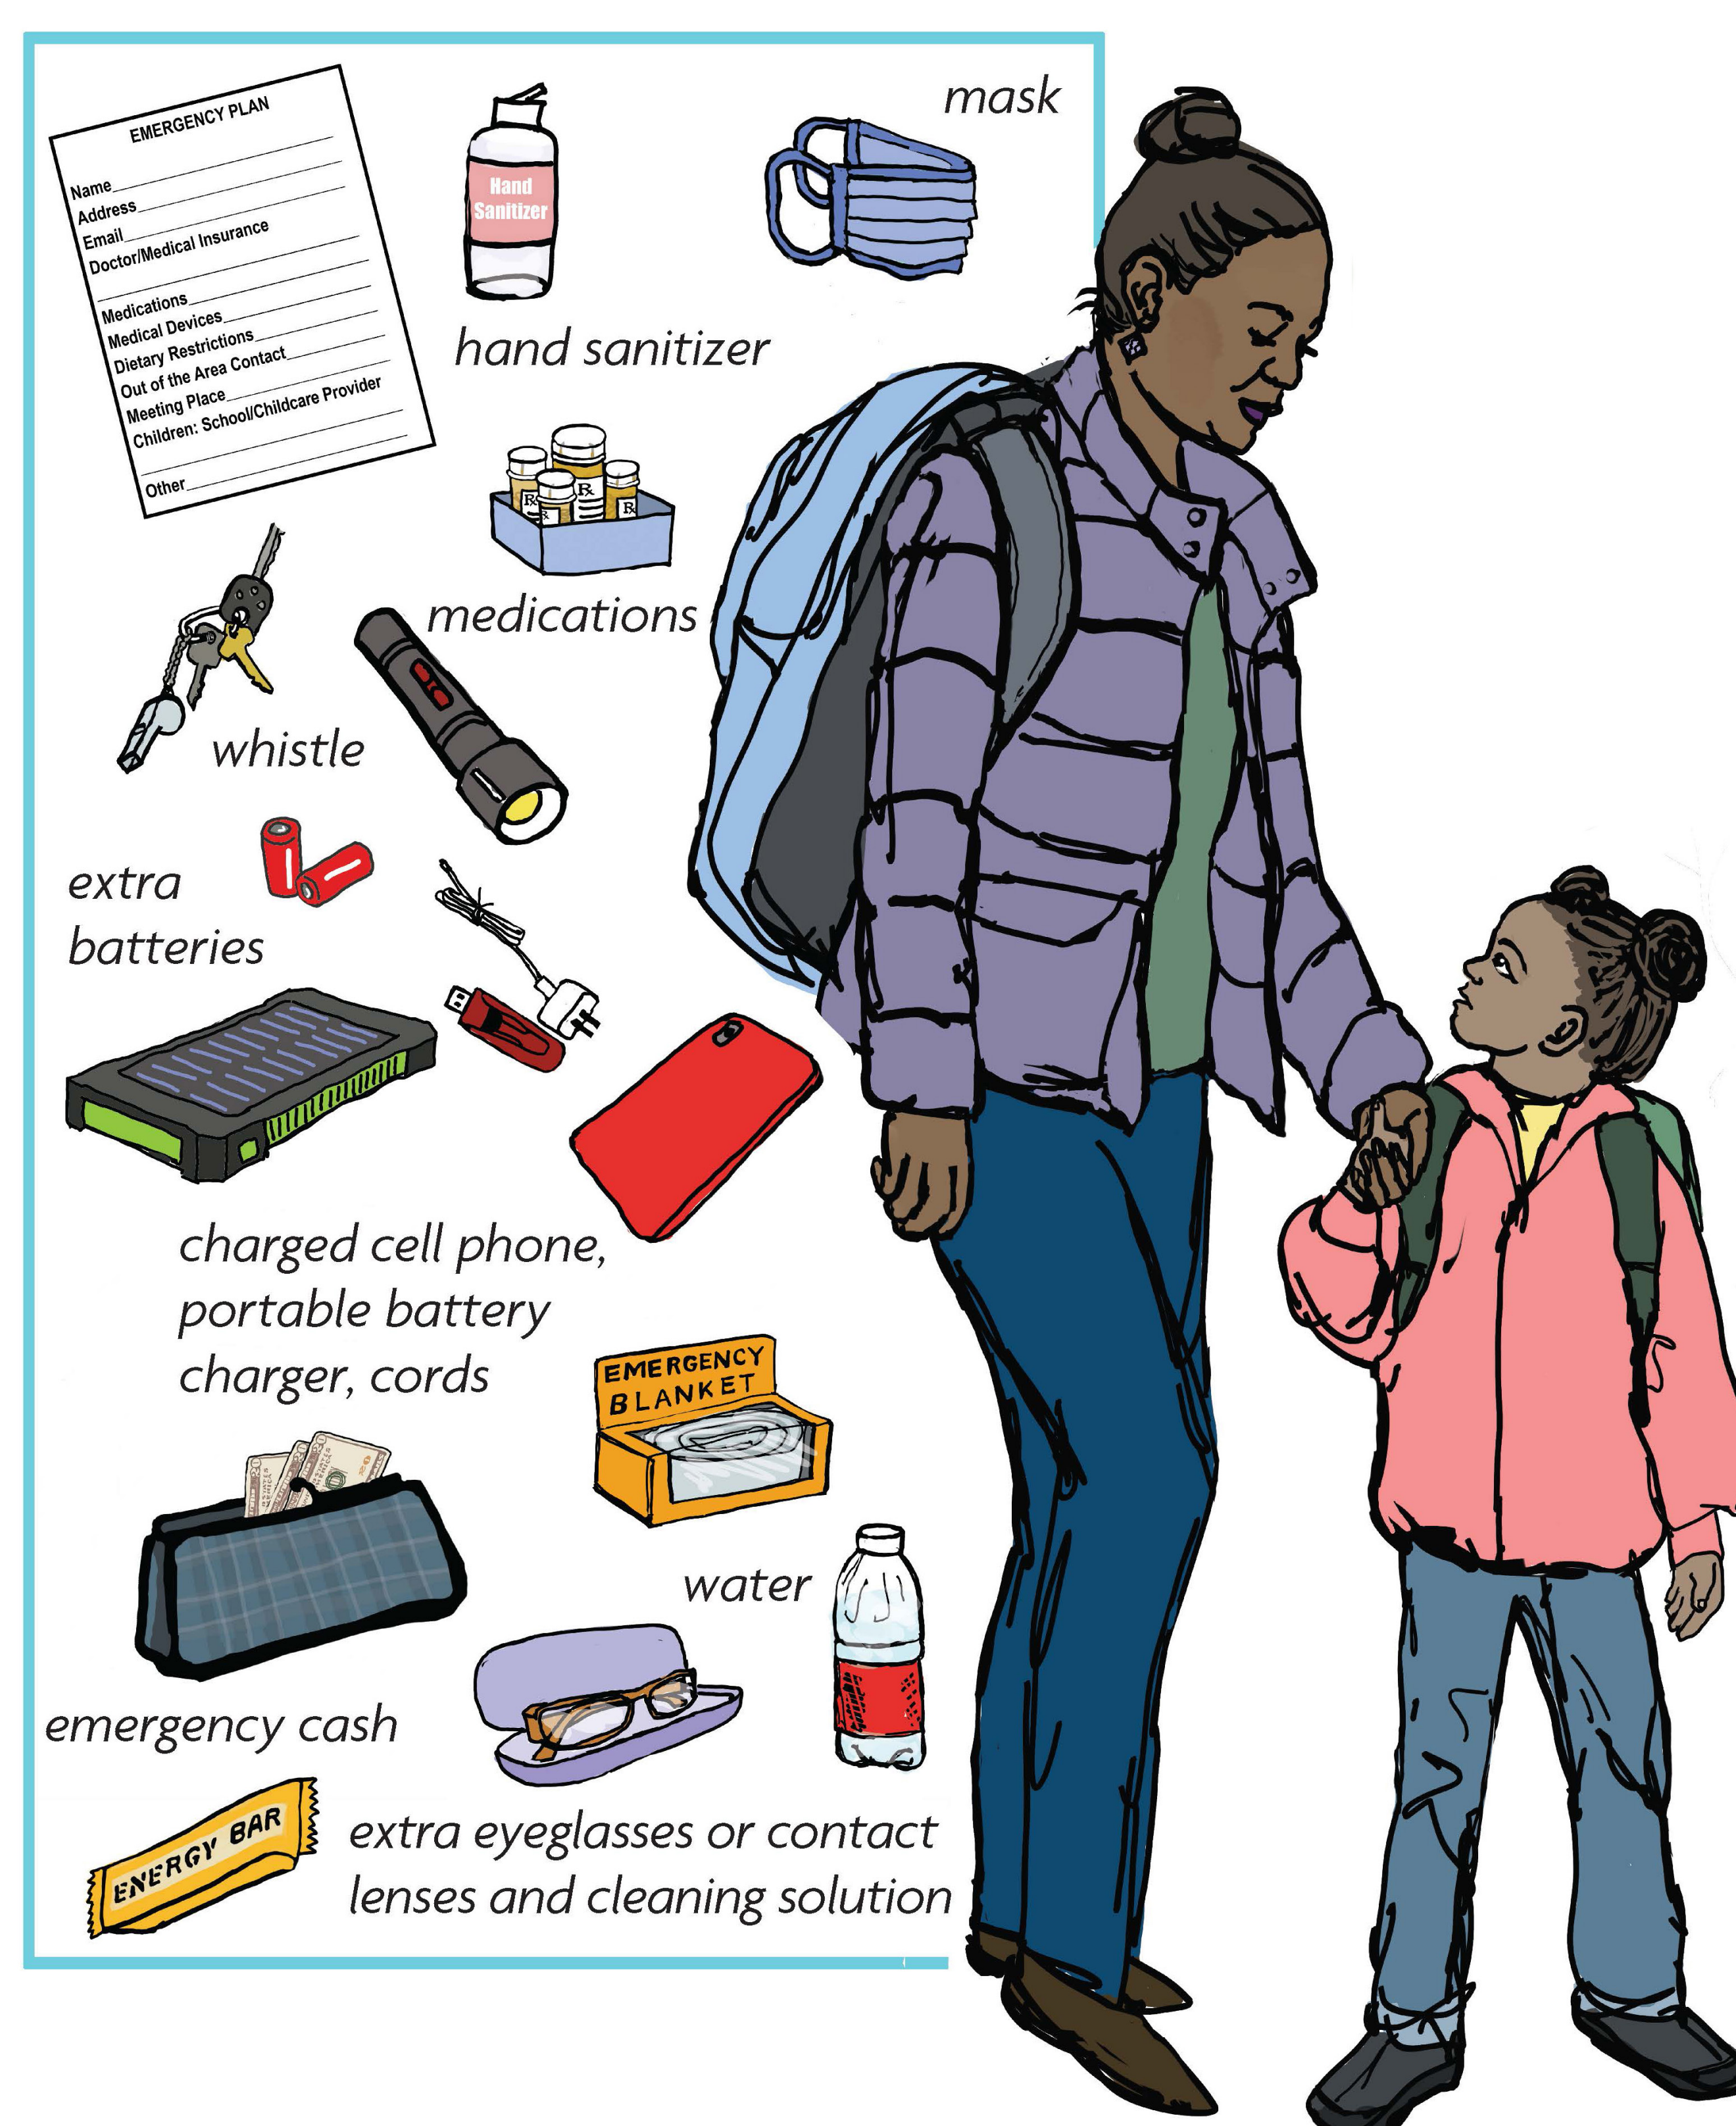

Consider special provisions for infants, kids, and pets.

No cabinet? Large trash cans are an inexpensive storage option.

Safely store supplies for outdoor cooking such as grill, stove, and propane tank.

PREPARE YOUR GRAB AND GO BAG, TOO!

Everyone in your home should have one, including your kids and pets. Store them where you can quickly grab it if you must leave your home, school, or office. Include documents like utility bills as proof of residence and photographs of family members and pets.

PREPARING BRINGS PEACE OF MIND

[Emergency kit checklist](#)

Preparing for earthquakes and tsunamis help you prepare for other disasters including fire, floods, and storms.
